

# WAGNER

by AIKIE

*Specialized circular saw blade  
for tube and profile processing*

## OPTIMIZED FOR THE BEST CUTTING RESULTS

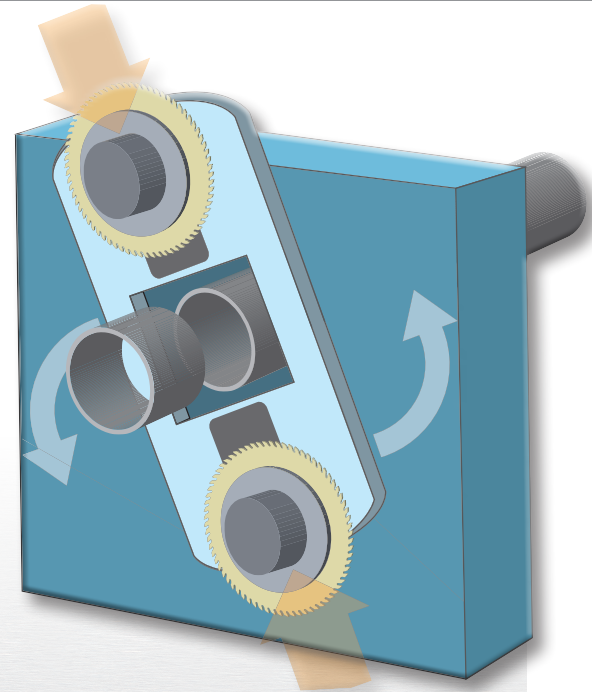

**WAGNER** is specialising in the production of carbide-tipped circular saw blades for movable and rotating sawing aggregates. Based on each customers' requirements the adequate tools are developed and designed by **WAGNER** in order to ensure that they suit the sawing process and achieve the highest efficiency.

## THE FOLLOWING QUALITY FEATURES ARE ESSENTIAL

Selection of the **tool steel**, the **saw blade diameter**, the **tipping** as well as the **tooth geometry**.

## OUR EXPERIENCE GUARANTEES MAXIMUM PERFORMANCE!

Count on us and convince yourself of our specialized circular saw blades for movable sawing units such as: Oto Mills, ADDA FER, VAI-Seuthe, SMS MEER, MTM, NAKATA (SHINKO), KUSAKABE, MITSUBISHI, SUMITOMO, THERMATOOL, SYTCO, KUSAKABE, ELMAKSAN, ZT ZG Zhongtai...

## OUR PRODUCT PORTFOLIO

An excerpt of our product range includes circular saw blades, which had been specifically designed for cutting welded tubes and meet the customer requirements of high cutting speed and feed, almost burr-free and straight cut as well as long tool life.

**Typical diameters of circular saw blades for cutting steel tubes of Ø 100 up to Ø 650 mm with tube thicknesses of 2.0 – 50 mm are, for example,**

**Ø 280 x 3.50/2.80 mm Z = 40 / 50 / 60**

**Ø 320 x 3.50/2.80 mm Z = 48 / 60 / 70**

**Ø 350 x 3.70/3.00 mm Z = 48 / 64 / 72**

**Ø 380 x 4.30/3.30 mm Z = 52 / 70 / 80**

available

- a) in coated design for long tool life
- b) with many-times resharpenable design or as a disposable tool

Further designs with differing specifications are available on demand!

Please contact us. Our special team of application engineers will be pleased to advise.
